Please make check payable to **ACRE**.

ACRE will refund approximately 46-49% of your contribution to AK CARE. This refund will be reported in your name to the Alaska Public Offices Commission as a contribution to AK CARE.

ACRE

The Action Committee for Rural Electrification (ACRE) is the grassroots political action committee of the National Rural Electric Cooperative Association. ACRE represents the interests of the nation's nearly 1,000 not-for-profit electric cooperative systems and their 41 million consumers in rural and urban areas of the country.

ACRE was organized to support federal candidates who will speak for and protect the interests of electric cooperatives and their consumers. ACRE is bipartisan and its contributions are based on a candidate's record of support for rural electrification, not on his/her political affiliation.

The fiscal year for ACRE is September 1 to August 31. ACRE contributions received after August 31 of any year will be recognized for the following year. All ACRE contributions will be reported to the Federal Election Commission.

AK CARE

The Alaska Committee for the Advancement of Rural Electrification (CARE) was organized by Alaska's electric cooperative leaders in 1985.

Every year, ACRE returns a percentage of contributions to states from which the donations were raised. In Alaska, national funds are combined with CARE donations to help support selected State Senate and House of Representatives candidates. CARE contributions are for candidates who support rural electrification efforts that benefit Alaska's half-million electric consumers. CARE is nonpartisan and makes contributions on the basis of a candidate's support for policies endorsed by the membership of Alaska Power Association.

The fiscal year for AK CARE is January 1 to December 31. Any contributions received after December 31 will be recognized for the following year. All AK CARE contributions will be reported to the Alaska Public Offices Commission.
