

Committee for the Advancement of Rural Electrification

The Alaska Committee for the Advancement of Rural Electrification (CARE) was organized by Alaska's electric cooperative leaders in 1985.

CARE contributions support State Senate and House candidates who support rural electrification efforts that benefit Alaska's electric consumers. CARE is nonpartisan and makes contributions on the basis of a candidate's support for policies endorsed by the membership of Alaska Power Association.

The fiscal year for AK CARE is January 1 to December 31. Any contributions received after December 31 are recognized the following year. All AK CARE contributions are reported to the Alaska Public Offices Commission.

Visit <http://www.alaskapower.org/political-action-committees.htm> for more information.

Committee for the Advancement of Rural Electrification
